Vertical accent

Designed to enrich Uno doors, the vertical accents introduce depth and character to any facade.

Reeded wood finish accent

This reeded wood finish accent brings warmth and texture to any facade. Made from durable laminated panels, its slatted-wood -inspired design introduces a distinctly biophilic presence. With its timeless appeal, it installs easily onto a Uno steel door and lends the entrance a natural touch that gives it a memorable, organic character.

Aluminum accent

Decorative accent for Uno steel doors with a 7" × 64" vertical window. Available in alunox or black, it is applied over a hybrid aluminum/PVC frame of matching color. This combination ensures a perfect seal and finish.

Pairs with color-matched contemporary hybrid aluminum/PVC frame and doorglass kits.

Doors sold separately.

The colors shown on the doors are for inspiration — Let your creativity flow!

Linear accents

The decorative accents add distinctive character to the doors in the Design collection.

Made of alunox, a material that replicates the look of brushed stainless steel while offering the benefits of aluminum: no corrosion, no oxidation, and no fingerprint marks, they feature an elegant design with a beveled edge.

Installed using automotive-grade adhesive tape, they ensure long-lasting performance.
