FROM THE PRESIDENT

Kohltech's journey began over 40 years ago with two friends—Peter Kohler and my father, John Ballard—who shared a vision for building something meaningful. What started as small ventures in Labrador City has grown into a leading window and door brand across Canada and the Northeastern United States, grounded in innovation, craftsmanship, and community.

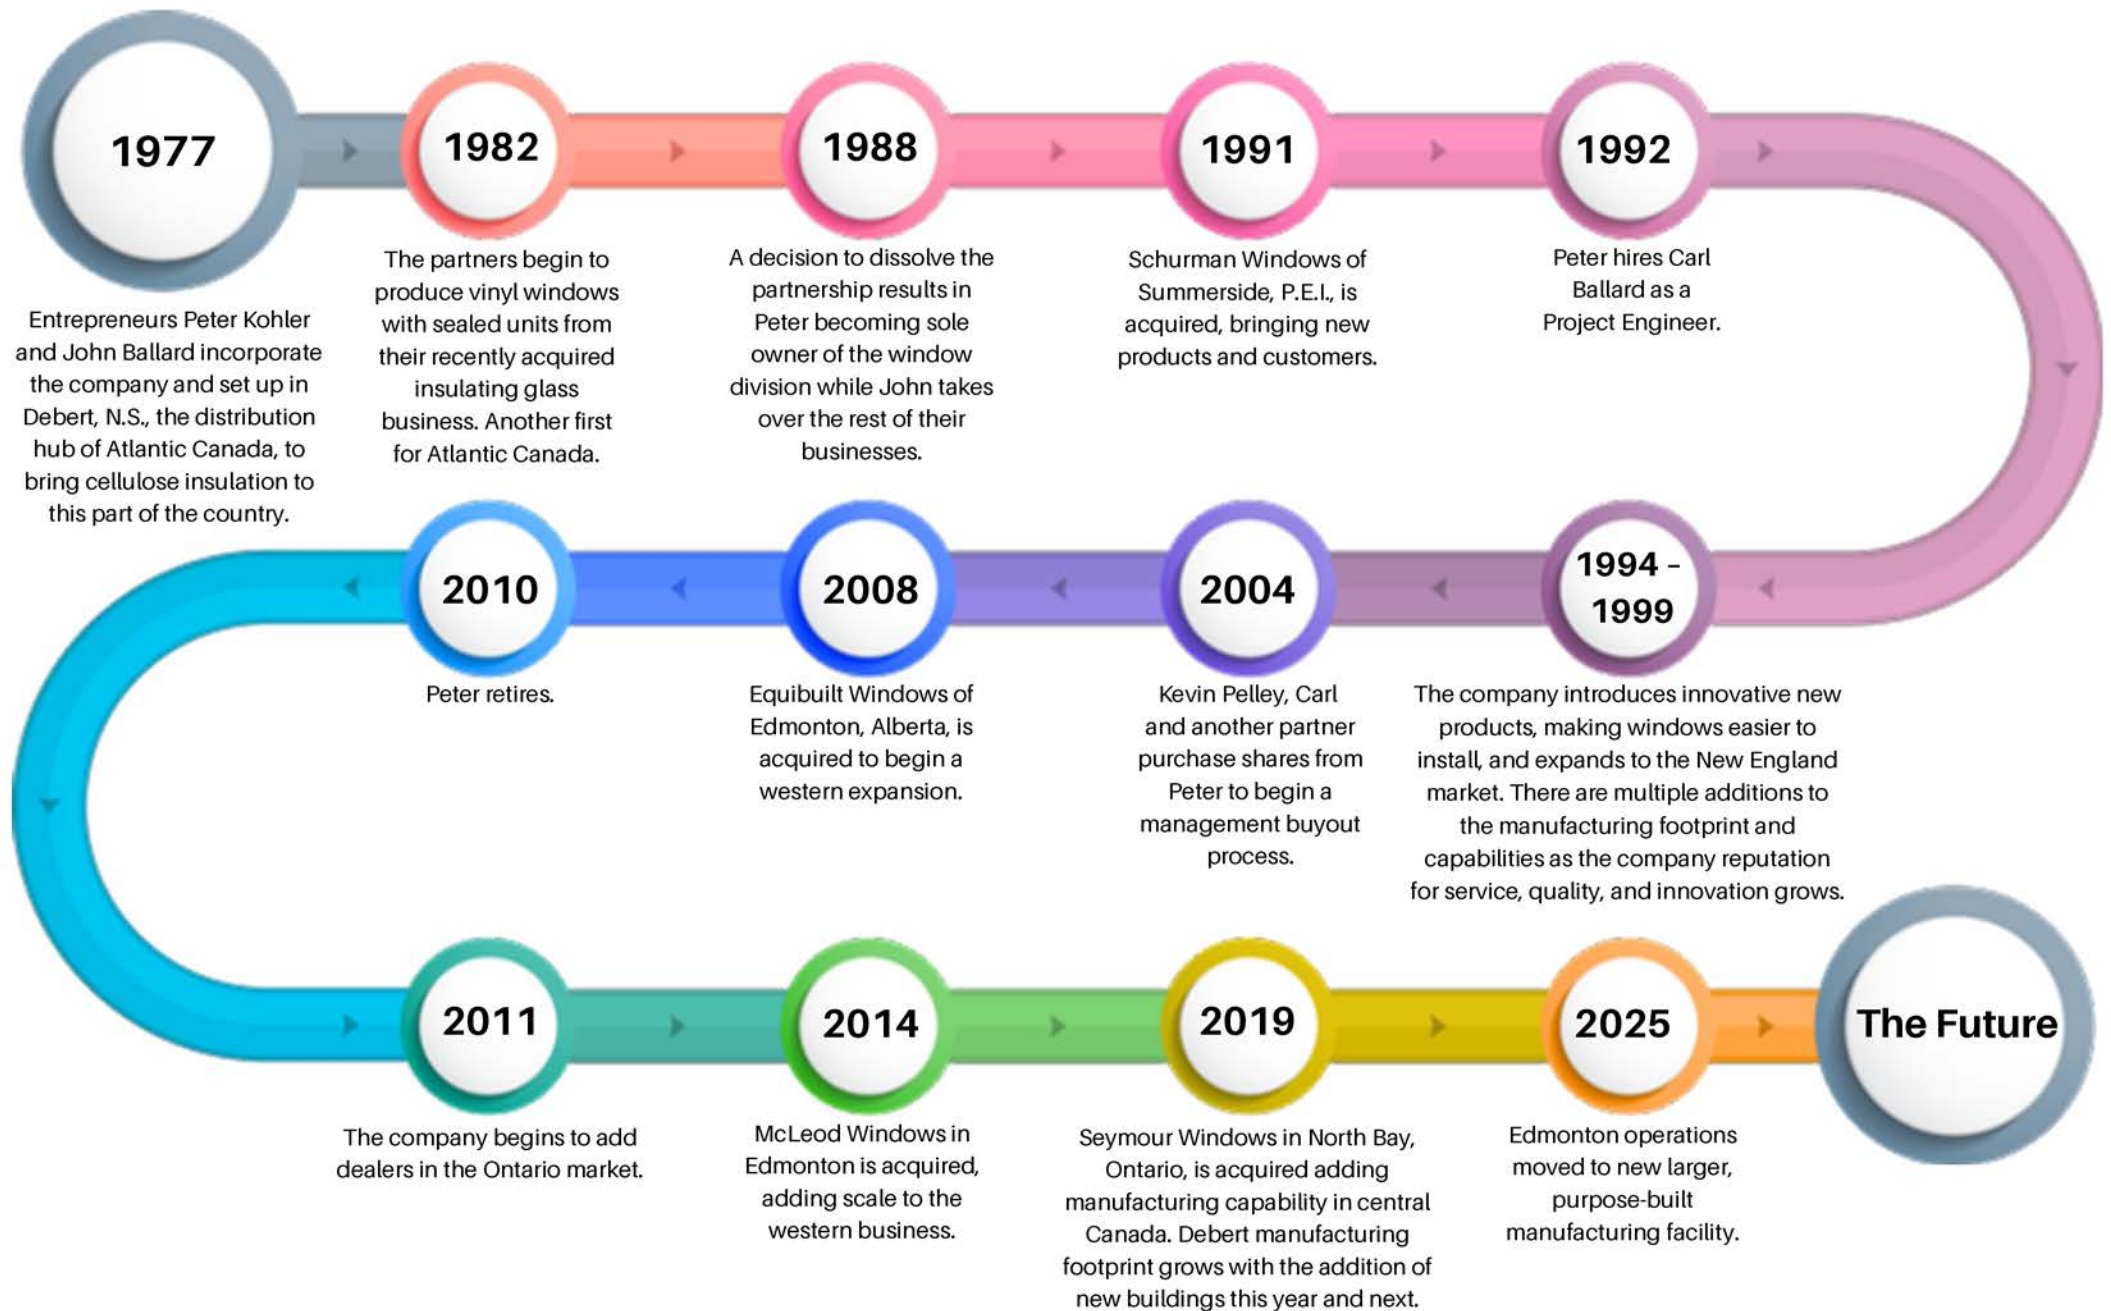

I remember helping to unload PVC and screen materials at our new production location as a young teenager—not realizing then how deeply this business would shape my life. Today, I'm incredibly proud to carry forward that legacy alongside an outstanding team that shares our commitment to people and purpose. At Kohltech, we have a lifelong passion for creating beautiful, functional, and long-lasting windows and entrance systems. Our products are designed not only to perform, but to enhance the comfort, style, and energy efficiency of your home for years to come. We are powered by service and quality craftsmanship because we believe our customers deserve nothing but the best.

Throughout our growth, one thing has remained constant: our deep gratitude. We are truly thankful for our dedicated staff, our trusted dealer partners, and the loyal customers who continue to choose Kohltech. You are the heart of everything we do. Together, your vision of home and our unwavering commitment to excellence unite to create something truly outstanding. At Kohltech, we don't just build windows and doors—we help people feel at home.

Carl Ballard

A HISTORY OF KOHLTECH

OUR WINDOWS

SINGLE / DOUBLE GLIDER

Our glider windows are easy to operate and clean. One sash slides side to side in our single glider, while our double glider allows both sashes to operate independently. Sashes can be tilted in and removed for easy cleaning.

Available in the following families:

Supreme (Single & Double Glider) | Select (Single Glider)

SINGLE / DOUBLE HUNG

Choose our single or double hung windows when air flow is your top priority. For our single hung windows, the bottom sash slides vertically to open, stays in place, and tilts in for quick and easy cleaning. On double hung windows, top and bottom sashes slide vertically. Since our single and double hung windows do not open outward, they're a great choice for rooms that face decks, porches, or walkways.

Available in the following families: Supreme | Select

CASEMENT

Our casement windows are reliable and practical. They open out to a full 90 degrees and are easily able to direct side breezes - offering excellent ventilation. When closed, they create a tight seal against the frame, and provide superior energy efficiency and weather resistance.

Available in the following families: Supreme | Select

AWNING

Our awning windows are hinged and swing out from the bottom, providing excellent ventilation and unobstructed views. They are complementary to a casement window with their similar performance.

Available in the following families: Supreme | Select

FIXED / PICTURE

Add visual appeal to your home and let in more natural light with our fixed windows. Fixed windows allow you to explore unique shapes and sizes, providing nearly unlimited possibilities.

Available in the following families: Supreme | Select

TILT & TURN

Our innovative tilt & turn windows are inspired by European design and functionality. Enjoy the best features of casement, fixed, and tilting designs with our elegant and versatile tilt & turn windows. They tilt inward from the top for draft-free ventilation, even during rain, or with a simple turn of the handle, open inward just like a door for maximum ventilation.

Available in the following family: Supreme

CUSTOMIZE
YOUR ORDER

CHOOSING THE RIGHT GLASS IS KEY

We offer a wide variety of high-performance glass options that will help increase your home's energy efficiency:

ENERGLAS®

The standard in glass performance. Our most popular choice reduces heat loss and harmful UV rays. This dual pane option features one panel of LoE coated glass, and one gas filled cavity for insulation.

TRIPLE ENERGLAS PLUS®

The ultimate in high performance, exterior sound reduction, and energy efficiency. Our triple pane option uses two panels of LoE coated glass, and two cavities filled with gas for superior insulation.

The above options come with your choice of the following types of LoE coating:

HIGH SOLAR GAIN (HSG) LoE

HSG glass welcomes the sun's heat into the room, helping to heat up homes in colder climates, and reduce energy costs. If you have large windows facing the sun during the day, this option will significantly increase the warmth of your room. (Default LoE coating type)

LOW SOLAR GAIN (LSG) LoE

If you get a lot of sun in the summer, consider using LSG glass. It significantly decreases the sun's rays from heating up the rooms in your home, preventing overheating in the summer, and is even more effective than HSG at reducing heat from escaping.

Pinhead

Satin Deco

Rain

OBSCURE GLASS OPTIONS

Take your home's privacy to the next level with these glass options.

Pinhead

Features a fine, pebbled surface resembling the head of a pin. This glass allows natural light to pass through while distorting visibility.

Satin Deco

A type of etched or acid-treated glass with a smooth, matte, satin-like finish. It provides a sleek, modern look while diffusing light and offering privacy.

Rain

A decorative, textured glass designed to mimic the appearance of raindrops streaming down a window, providing privacy with some distortion.

Other glass options are available through your local Kohltech Dealer. For more information, please see our website.

Steve Lam has been working for Kohltech Windows & Entrance Systems in Edmonton since 2008, but his foray into glass started much earlier. "I have been working with glass since 1982," Steve says.

Steve has always been busy with his hands, fixing what he could when needed. In 2022, Steve moved into a maintenance role, which still keeps him heavily involved with the glass plant.

OUR
DOORS

Your home's entrance is where first impressions are made.

That's why every entrance system is crafted to add a touch of beauty to your home, while providing the security and performance you need.

Our entrance systems are custom-made, offering you an outstanding choice of distinctive colours, decorative glass, transoms, and shapes to enhance the character of your home within your own budget and style, with the highest degree of quality and craftsmanship.

STEEL & FIBERGLASS DOORS

The strength of steel adds security, durability, and a long-lasting, low-maintenance first impression to your home.

A fiberglass door will not dent and has all the beauty of a traditional wood door and will not split, crack, or rot.

Our doors are beautiful, long-lasting, low-maintenance, secure, and energy-efficient.

To us, choice matters just as much as durability. That's why we offer various textures, a world of inspired glass designs, paintable surfaces, fashionable stain, and bright paint colours.

STAIN OPTIONS

Pecan

A slightly amber or honeyed hue, creating a rich yet soft appearance.

Mocha

A dark brown colour with warm, chocolatey undertones.

Ash

A light to medium brown with subtle, cool undertones - rustic, yet elegant. (Right top picture)

Red Mahogany

A warm, deep reddish-brown colour with a strong, luxurious undertone.

Charcoal

A deep, dark grey with cool undertones. Creates a dramatic contrast, adding depth.

Chestnut

A warm, medium brown with reddish undertones, resembling the earthy tones of the chestnut tree's wood. (Left picture, page 22)

Each stain application has its own unique finish. Colours will vary slightly from those illustrated.

DOUBLE DOOR & GARDEN DOOR

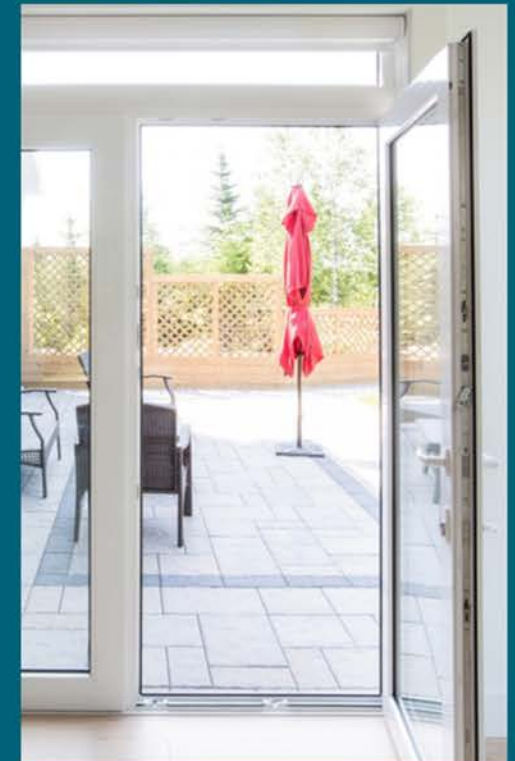

With the ideal combination of refined craftsmanship and elegant design, these doors feature either two operating doors with a floating astragal (Double Door - left picture), or one side operating with a fixed unit on the other side (Garden Door - right picture).

Choose from a selection of options along with a variety of colours, energy-efficient glass, and decorative glass kits to give your home a truly unique look.

SUPREME PVC SWING DOOR

A high-performance door that provides security and performance ideal for the toughest climates. Our Supreme PVC Swing Door is a superior quality door with the versatility of creating a beautiful main entrance or an attractive patio door. The Low Profile Sill is a fantastic option when looking for that simple step into the fresh air. Available in outswing only.

SUPREME TILT & TURN PATIO DOOR

Our unique tilting patio door gives new meaning to the words functionality and flexibility. The tilting function added to a traditional inswing provides convenience and comfort. In the tilt position, the entire door gently tilts in. Also available in a French Door configuration.

DOOR HARDWARE OPTIONS

Here is a selection of our available door hardware options.
For more options, check out kohltech.com.

Multi-Point Locks

Increase comfort and peace of mind with this added security for your home. These locks are one solid unit with three latches. Operating as one, all three latches engage when the door is closed. One movement of the thumb turn or key activates all three latches. Each latch is a deadbolt and cannot be compromised. Below are some of the different handles available with Multi-Point Locks.

Only available on fiberglass doors.

THE KOHLTECH COLOUR PALETTE

AMAZING RED

This shade reflects the stunning landscapes during the fall, when maple trees burst into fiery red, showcasing the beauty of nature that Canadians hold dear.

MARITIME MAUVE

A soft and muted shade of purple, evoking a sense of tranquility and creativity.

PRAIRIE PINK

This colour symbolizes the arrival of spring, embodying renewal and hope. It is also an indication of good weather for sailors, when seen in the night sky.

VICTORIA VIOLET

A rich and vibrant colour. In the spring, fields of wildflowers, including violets, bloom across the landscape illustrating the country's natural beauty.

CRANBERRY

This colour reflects the tart berries that grow abundantly in the wetlands across the country, and the warmth of autumn.

CRIMSON RED

This bold and striking colour is inspired by vibrant fall foliage, blooming flowers, and wildlife, like hummingbirds.

ATLANTIC AMBER

An amber hue that reflects the rich coastal heritage and natural beauty of Canada's Atlantic provinces, the glow of the sun setting over the ocean.

ROCKY MOUNTAIN RUST

The hue of the changing seasons. It evokes the beauty and natural richness of the mountainous regions, particularly the iconic Rocky Mountains.

KOHLTECH BLUE

Inspired by our company and its history and achievements. This colour symbolizes our outstanding employees and wonderful dealers.

MUSKOKA MOSS

A deep, earthy green, capturing the essence of lush landscapes, particularly in the Muskoka region, known for its stunning lakes and dense forests.

GROS MORNE GREEN

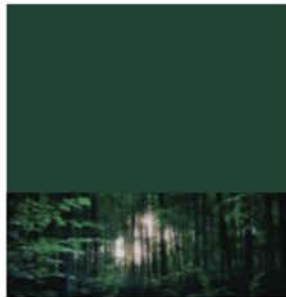

A rich and vibrant hue, associated with the stunning wilderness of Gros Morne National Park, reflecting the lush greenery of the park's forests, fjords, and rolling hills.

HUDSON BAY BLUE

Inspired by the tranquil waters of the bay, it symbolizes the connection to our maritime heritage, as well as the natural beauty found in its coastal areas and lakes.

Custom colours are also available. Colours will vary slightly from those illustrated and actual paint. For true colours, please request a sample through your local dealer/supplier.

FOREST GREEN

This rich, healthy hue reflects the lush coniferous and deciduous forests that are vital to our ecosystems.

SLATE

This colour reflects the rugged and varied landscapes and embodies the strength and durability of the country's natural resources.

ALUMINUM

Inspired by our industrial heritage and its forward-thinking approach to resource management and environmental stewardship, with its sleek and modern silver hue.

KOHLTECH TAN

This colour evokes the sandy shores of beautiful beaches, and the vast prairies and fertile farmlands that are crucial to the agricultural economy.

CASHMERE

With its soft, luxurious tones, it evokes a sense of warmth and comfort that resonates with Canada's welcoming spirit and cozy lifestyle.

SANDSTONE

This colour reflects the expansive landscapes found in regions like the Canadian Shield, where sandy hues characterize both the soil, rock, and historical architecture.

UNIVERSAL BROWN

Inspired by the richness and smooth texture of the world's favourite indulgences - from coffee beans to a rich bar of chocolate.

IVORY

This colour is reminiscent of the pristine landscapes found in national parks and the serene beauty of winter, where a snowy glow blankets the land in a soft warm hue.

WHITE

The colour of the vast snowy landscapes and wildlife, like the majestic polar bear and snowy owl.

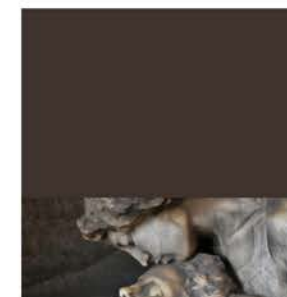

SABLE

This colour evokes the imagery of grey skies on a stormy day, symbolizing strength in the face of adversity.

COMMERCIAL BROWN

Inspired by our agricultural heritage, representing the rich farmland that supports local communities and economies.

BRONZE

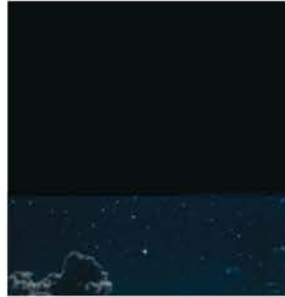

Inspired by the natural landscapes, this colour celebrates the wilderness, craftsmanship, and traditional artistry.

Custom colours are also available. Colours will vary slightly from those illustrated and actual paint. For true colours, please request a sample through your local dealer/supplier.

WINDSWEPT SMOKE

This colour captures the essence of the country's beauty, where smoke from campfires dances through the air on chilly nights.

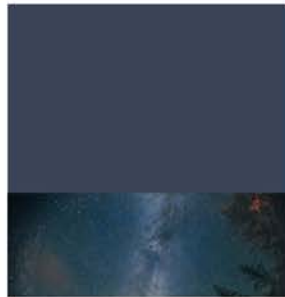

BLACK

Symbolizing strength, elegance, and resilience, from the dark imposing silhouettes of a cloudy night sky.

IRON ORE

A warm dark charcoal grey. Inspired by stone and steel, symbolizing resilience and perseverance - the industrial backbone of Canada.

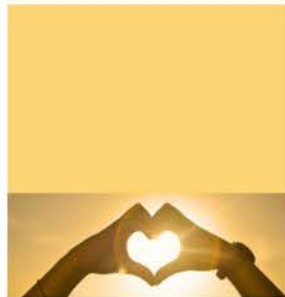

OLD WORLD BLUE

Inspired by the expansive skies and pristine lakes, evoking a sense of calm and connection to nature.

SASKATOON SUMMER

With its bright, golden tones, this colour embodies the comfort of sunny days spent outdoors, whether at local farmers' markets or enjoying picnics in lush fields.

SUNGLOW

Inspired by the lively energy of the warmer months, celebrating both the beauty of the landscape and the strength and passion of its communities.

Custom colours are also available. Colours will vary slightly from those illustrated and actual paint. For true colours, please request a sample through your local dealer/supplier.

Assisted living sills are not warranted against water leakage. *Stress Crack warranty coverage is for 1 year. No warranty for rusting of any hardware unless premium upgrade.

For decades, Kohltech Windows & Entrance Systems has felt like family to many, including the McLeod family.

Paul McLeod is one of the original employees when he started in 1982 as a carpenter to help prepare the Debert, N.S., facility for making windows. Over this time, Paul has held many positions with Kohltech including Production Supervisor and, for the last many years, Warranty Supervisor.

One of the members of Paul's team is his son, Morgan, who joined the company over 20 years ago.

The family connection doesn't end with father and son. Paul's wife, Shelley, works in the Entrance Door department along with Morgan's wife, Brittany. We are hopeful that in a few years, their children will continue the tradition.
